## Systems & Automation Engineer | Technical Operations

Egypt (Remote) | [codyaxton@outlook.com](mailto:codyaxton@outlook.com) | [Portfolio](#) | [GitHub](#) | [Upwork Profile](#)

### SUMMARY

Systems & Automation Engineer with 6+ years of experience designing scalable digital ecosystems, custom CRM architectures, and high-volume data workflows (known professionally as Cody)[cite: 2]. Specializes in building reliable backend pipelines, direct-response web infrastructures, and cross-platform integrations using modern API and automation tools[cite: 2]. Experienced in overseeing technical delivery from initial schema design to production deployment, pre-launch QA protocols, and system reliability monitoring[cite: 2].

### TECHNICAL STACK

- **CRM & Marketing Systems:** GoHighLevel (GHL), Custom Pipelines, Triggers, Webhooks, Calendar Systems, Smart Lists[cite: 2].
- **Integration & Logic Engines:** Make (Integromat), n8n, Zapier, REST APIs, JSON Parsing, Error Routing[cite: 1, 2].
- **Web & Data Infrastructure:** Supabase, PostgreSQL, React, TypeScript, Tailwind CSS, Vercel, Netlify[cite: 1, 2].
- **Operations & Protocols:** Meta Pixel Server-Side Tracking, DNS/Domain Hygiene, Email/SMS Gateway Delivery, QA Protocols[cite: 1, 2].

### EXPERIENCE

#### Lead Funnel Engineer & Systems Architect — Fusion 44X

2026

- Architected full-funnel direct-response web application backed by Supabase schemas and custom performance dashboards[cite: 1, 2].
- Implemented server-side attribution and Meta Conversions API to eliminate drop-off across user acquisition touchpoints[cite: 1, 2].
- Constructed instant multi-channel webhook triggers for lead capture, calendar booking, and CRM updates[cite: 1, 2].

#### Platform & Systems Architect — LingoVantage

2025 – 2026

- Built end-to-end LMS infrastructure featuring tiered student portals, automated auth, and admin controls[cite: 2].
- Engineered multi-channel dispatch pipelines connecting placement exams to Telegram and WhatsApp notifications in real time[cite: 2].
- Designed and deployed auto-grading workflows and assignment submission pipelines, eliminating manual operational bottlenecks[cite: 2].

#### AI Automation Specialist — Helping Hands Systems

2025

- Designed and implemented automated workflows to streamline digital business operations, client onboarding, and lead pipelines[cite: 2].
- Engineered cross-platform API integrations connecting CRMs, communication channels, and internal fulfillment tools[cite: 2].

#### Automation Consultant — Tadarab

2025

- Built complex multi-branch routing scenarios in Make handling high-volume lead qualification and dynamic communications[cite: 1].
- Designed pipeline validation tests to maintain zero message loss across large distribution batches[cite: 1].

#### Automation & CRM Architect — GMC LLC

2024 – 2026

- Developed full technical foundation across GoHighLevel, n8n, and Make for lead acquisition and customer operations[cite: 2].
- Designed and deployed conversion funnels with automated checkout, upsell logic, and dynamic lifecycle notifications[cite: 2].
- Structured CRM pipelines, tagging schemas, and custom fields to maintain clean data integrity and high email/SMS deliverability[cite: 2].
- Handled pre-launch testing, domain/DNS routing, and edge-case handling across webhook failure points[cite: 2].

#### Founder & Technical Lead — Mortal VA

2023 – Present

- Founded and led a digital operations firm providing custom CRM workflows, AI automations, and web solutions[cite: 2].
- Managed project scoping, technical milestones, and quality control across 15+ international client deployments[cite: 2].
- Deployed AI-driven voice and chat agents integrated with scheduling pipelines and lead capture forms[cite: 2].

#### Operations & Pipeline Lead — Total Post N Print

2024 – 2025

- Managed daily operational pipelines, customer lifecycle systems, and billing workflows[cite: 2].
- Streamlined handoff processes between incoming orders, technical fulfillment, and customer support[cite: 2].

#### Outreach Specialist & Campaign Coordinator — Wholesale Real Estate & Solar

2019 – 2022

- Orchestrated outbound acquisition campaigns and managed high-volume lead pipelines across direct markets[cite: 2].
- Analyzed call metrics and conversation funnels to optimize qualification workflows[cite: 2].

### SELECTED ACHIEVEMENTS

- **System Reliability:** Architected 15+ scalable automation infrastructures achieving 30-40% operational efficiency improvements[cite: 2].

- **Technical Delivery:** Successfully launched 6+ complex web funnels and LMS portals with custom backend integrations and zero launch data loss[cite: 2].
